LANGUAGES

English, Hindi

PROFILE

I am a skilled Web Developer and Designer with knowledge of programming languages, including C++, HTML, CSS, and JavaScript. With a passion for coding and a goal to excel as both a coder and developer, I bring a strong foundation in web development and a commitment to continuous learning. My aim is to find innovative solutions and become a standout professional in the field.

WORK EXPERIENCE

Personal Blogging Website

2022

- Designed and implemented a full-featured blogging platform using PHP for server-side scripting, HTML and CSS for the frontend, and MySQL for database management.
- Implemented user authentication and authorization features, allowing users to create accounts, log in, and manage their profiles securely.
- Integrated with MySQL for data storage and retrieval.
- Ensured the website is fully responsive and optimized for various devices.

Food Recipe Website

2023

- Developed a full-stack food recipe website using React.js for frontend and Node.js for backend.
- Integrated with MongoDB for efficient data storage and retrieval.
- Implemented user authentication, food catalog, food cart, and order processing functionalities.

Personal Blogging Website

2024

- Built a fully functional e-commerce application using Kotlin and Android Studio, featuring a modern and intuitive user interface.
- Implemented product catalog management, including product listing, categorization, and detailed product views.
- Developed a dynamic shopping cart with features for adding, removing, and updating items, and calculating totals.
- Implemented user authentication and account management, allowing users to register, log in, and manage their profiles.
- Utilized Firebase for managing product information, user data, and order history.

CERTIFICATIONS

- Ultimate Boot Camp in Web Development from PREP LABS
- Full Stack PHP from Syllogistek
